*Pteris cretica wimsettii*

*Pteris adiantoides (Pellaea viridis)*

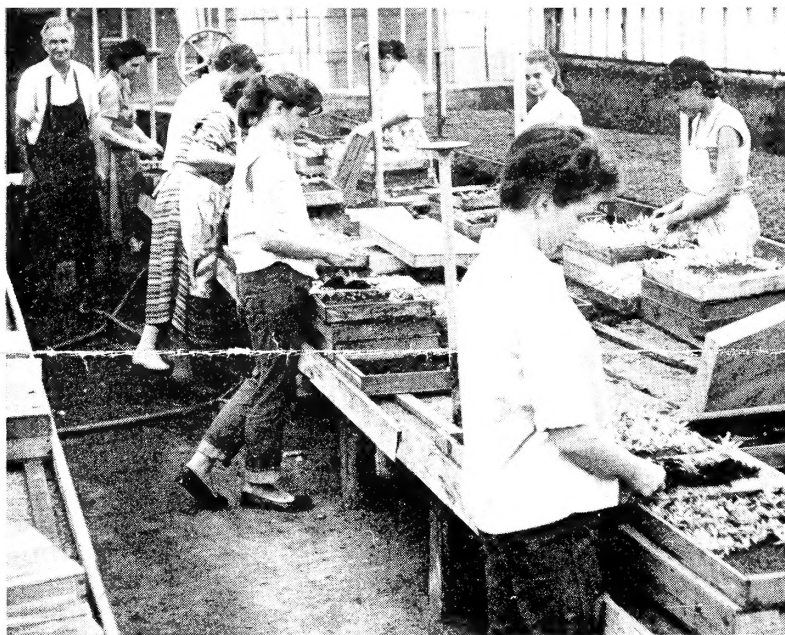

*Phyllitis scolopendrium cristatum*

*Pteris cretica parkeri*

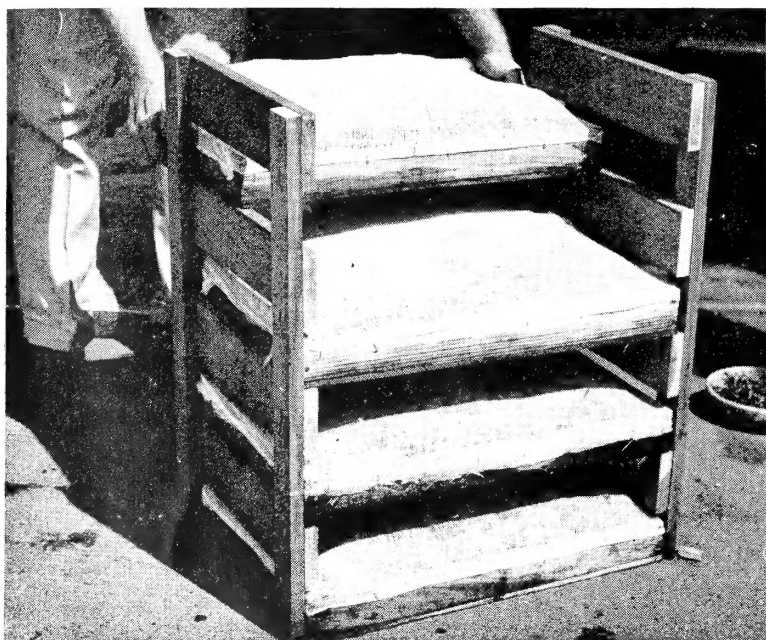

*Adiantum decorum 'Pacific Maid'*

Re-transplanting of table ferns, house No. 153

the tiny sporelings are transplanted to flats; house No. 180

Shipping department:  
to meet inspection requirements, flats are screened with cheesecloth,  
giving both protection as well as ventilation in transit.

Strongly crated in units of several flats, with maximum circulation of  
air, the little ferns travel best if shipped undisturbed as they were grow-  
ing in the greenhouses.
